Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

No agreement as to patentability of claims was reached. Applicant explained that Examiner had previously acknowledged that claims would likely be allowable, but rejection was provided for nevertheless. Applicant explained that Brown's 14 day test is not comparable to applicant's. Applicant explained that Brown's "spray test" is undefined in contradistinction to applicant's specific designation of an ASTM test. Applicant believes the "spray test" results of Brown may not be comparable to applicant's. Examiner pointed out that the BTSE/VS example of applicant appears to be conducted with solvent and pH conditions different from applicant's experiments on inventive compositions. Examiner suggested that comparisons should be provided with all conditions the same except for compositional variation that is to be demonstrated.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
